Attach the following documents:

- Lab Instructions: Attached
- Student Handout(s): Excel sheet- Exit ticket (both available on Google classroom)
- Rubric: Attached

Short Description (Be sure to include where in your instruction this lab takes place):

Lab Plan

Lab Title: The Numbers Speak to me.

Prerequisite skills: Reading an amortization table.

Lab objective: To develop an understanding of the cost of a home within the context of a local market and the cost of living.

Standards: (Note SPECIFIC relationship to Science, Technology, and/or Engineering)

Mathematics K–12 Learning Standards:

- A-SSE-1A, A-REI-1

Standards for Mathematical Practice:

- Look for and make use of structure.
- Make sense of problems and persevere in solving them,
- Attend to precision.

K-12 Learning Standards-ELA (Reading, Writing, Speaking & Listening):

•

Finance

- Internet usage, 12-CD-1

Leadership/21st Century Skills:

21st Century Interdisciplinary themes (Check those that apply to the above activity.)

- Global Awareness Financial/Economic/Business/Entrepreneurial Literacy Civic Literacy
 Health/Safety Literacy Environmental Literacy

21st Century Skills (Check those that students will demonstrate in the above activity.)

LEARNING AND INNOVATION

Creativity and Innovation

- Think Creatively
 Work Creatively with Others
 Implement Innovations

Critical Thinking and Problem Solving

- Reason Effectively
 Use Systems Thinking
 Make Judgments and Decisions
 Solve Problems

Communication and Collaboration

- Communicate Clearly
 Collaborate with Others

INFORMATION, MEDIA & TECHNOLOGY SKILLS

Information Literacy

- Access and Evaluate Information
 Use and manage Information

Media Literacy

- Analyze Media
 Create Media Products

Information, Communications and Technology (ICT Literacy)

- Apply Technology Effectively

LIFE & CAREER SKILLS

Flexibility and Adaptability

- Adapt to Change
 Be Flexible

Initiative and Self-Direction

- Manage Goals and Time
 Work Independently
 Be Self-Directed Learners

Social and Cross-Cultural

- Interact Effectively with Others
 Work Effectively in Diverse Teams

Productivity and Accountability

- Manage Projects
 Produce Results

Leadership and Responsibility

- Guide and Lead Others
 Be Responsible to Others

Teacher Preparation: (What materials and set-up are required for this lab?)

Materials

- Top 50 Cities and income needed to buy a house there. Excel sheet.
- Google Form Exit Ticket

Set-Up Required:

- Share all forms in classroom.

Lab Organization Strategies:

Leadership (Connect to 21st Century Skills selected):

- Thinking Creatively- Looking at the numbers and coming to a complex decision.

Cooperative Learning:

- When using partners

Expectations:

- Students will engage with the numbers to discover other pertinent information to be better informed as they make decisions.

Timeline:

- Lab should talk anywhere from 20 to 50 minutes

Post Lab Follow-Up/Conclusions:

Discuss real world application of learning from lab:

- Decision making from data provided,
- Reviewing and critiquing data

Career Applications

- Managerial accounting, Data manipulation

Optional or Extension Activities

- Students that struggle may work with a partner, but both must turn in an excel worksheet and exit ticket.
- DO a further study of living in different areas of our town, costs, and income needed.
- Continue to use the map from this assignment to create a more detailed look at costs of living in those five cities.

<https://wa-appliedmath.org/>

Lab Instructions for Lesson 2

The numbers speak to me

- 1- Get a copy of the salary you must earn to buy a home in the 50 largest metropolitan areas.
- 2- Look at your chart and tell me what the numbers are saying to you?
- 3- What city looks like it would be a good place to live according to this chart?
- 4- What city looks like it would be a bad place to live according to this chart?
- 5- Look through the chart and choose 5 cities you might like to live in?
- 6- Record those cities on the map of the USA that was provided.
- 7- Google the median income for each of the 5 cities you chose and place it on the excel spreadsheet. (What is the median income in _____, __.)
- 8- Use Indeed.com to find jobs with the salary needed for the house in each city.
- 9- Record two jobs that you might be interested in doing in that area.
- 10- From the five cities available chose a city to live in. Place a #1 in the win column for the place you chose.
- 11- On the google form respond to the question.
 - a. Why did you choose the city you did?
 - b. What did the numbers say to you?

Exit Ticket

Before you leave class today, answer the following questions.

* Required

1. Name *

2. Email

3. Where would you live based on the information you studied today? *

4. What did the numbers say to you? *
